## Term Project Proposal

Department of Electrical and Computer Engineering

Project Title	DAILY TASK PLANNER WITH PRIORITY LEVELS	
Course Title	APPLICATION OF INFORMATION AND COMMUNICATION TECHNOLOGY	
Sr. No.	Student Name	Registration Number
01.	MAHNOOR ZAINAB	BCY243095
02.	ISRA BABAR KIANI	BCY243021

## Idea:

This proposal outlines the development of a "Daily Task Planner with Priority Levels" – a user-friendly application designed to assist individuals in effectively managing their daily tasks and improving productivity. The planner will incorporate a robust priority system to ensure that the most critical tasks are addressed first.

## Objectives:

The primary objective of this project is to create a versatile and intuitive task management application that:

- \* Enhances productivity: By providing a structured framework for task organization and prioritization.
- \* Reduces stress: By minimizing feelings of overwhelm and improving time management.
- \* Improves focus: By enabling users to concentrate on the most important tasks at any given time.
- \* Increases accountability: By providing a visual representation of progress and encouraging consistent task completion.

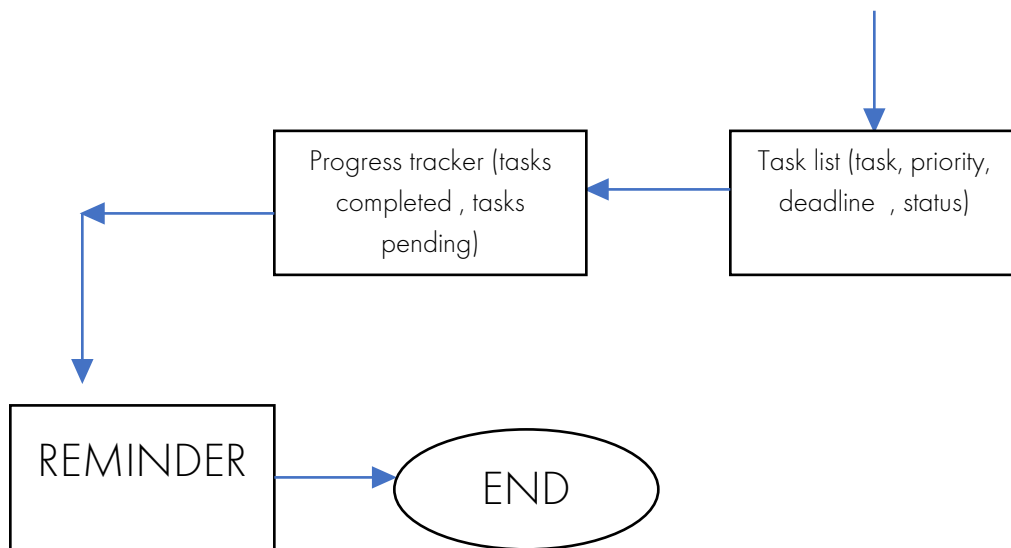

## Applications:

The "Daily Task Planner with Priority Levels" can be implemented in various forms, including:

- \* Web application: Accessible from any device with an internet connection.
- \* Mobile application: Available for download on iOS and Android devices.
- \* Standalone desktop application: For users who prefer a local installation.
